

Arubadaptor-QC

Cisco to Aruba Adapter "Arubadaptor QC"
<https://wifighter.shop/en/Arubadaptor-QC>

Application

The Arubadaptor QC enables the use of Aruba access points with mounting plates designed for Cisco access points.

The tool-free slide-in mechanism allows the adapter to be attached to the AP quickly, ensuring fast installation.

Benefits

The Arubadaptor QC enables migration without drilling — meaning no dust, no noise, and no surface damage. This makes it ideal for use in hospitals, care facilities, food-processing environments, and similar sensitive areas.

Compatibility

- Compatible with Aruba access points of the 500, 600, and 700 series
- Compatible with Cisco access-point mounts starting from the AP1040 series (approx. 2009)
- NOT compatible with Meraki mounting plates

Material, Farbe und Herkunft

- Stainless steel
- Designed & made in Hamburg, Germany

Quick Guide

- Remove the Cisco access point from the Cisco mount
- Slide the Arubadaptor QC into the existing Cisco mount
- Lock the Arubadaptor QC into place using the integrated latch
- Slide the Aruba access point onto the Arubadaptor QC
